

***Helping to bridge cultural
differences
between Japan & the U.S.***

Japan and the United States are arguably among the most polar opposite cultures on the planet. When these two cultures intersect, the potential for cultural misunderstandings is as large as the seas that separate them...*and more costly than you might imagine.* With some strategic preparation, you can lay the foundations for bridging these differences and for laying the foundation for engaging in a successful relationship with your Japanese partners.

**Allow us to help you build those bridges.
That's what we do.
And we love doing it.**

We proudly offer the following programs:

Surviving Japan! A Business & Cultural Toolbox

Surviving Japan! For the Western Woman

Japanese Client Hosting Support

Intensive Cultural Immersion

Sister City Relationship Support

School Presentations & Curriculum Support

Japan Research

**Customized programs available upon
request.**
